

# ECOPRINT™

by ecologicalfibers,inc.

Ecological Fibers is proud to announce the expansion of our EcoPrint™ line. Known for remarkable printability and durability, the original line of EcoPrint™ I and II will be joined by EcoPrint™ 7, 10 and 17. Each offering is designed in specific weights to allow maximum versatility while ensuring unmatched sustainability through the use of 100% hazardous solvent free, water based coatings.

## ECOPRINT 7

### INTRODUCING OUR NEW ALTERNATIVE TO FILM LAMINATION

**This eco-friendly, curbside recyclable, coated cover material is strong, prints beautifully, and has a terrific hand and weight that conveys a sense of quality, making it the perfect book jacket material.** We are proud to present it as the environmentally sound solution to plastic lamination on book covers, jackets, and packaging applications which require superior printability combined with surface durability.

- DURABLE
- CURBSIDE RECYCLABLE
- PRINTABILITY
- SOLVENT FREE
- DESIGNED FOR JACKETS & COVERS
- NO FILM LAMINATION REQUIRED

### ECOPRINT™ I

126 gsm

EcoPrint™ I is a demonstration of Ecological's constant drive towards improvement. EcoPrint™ I has undergone extensive development to bring this coated box wrap material to today's level of quality. At .054" EcoPrint™ I provides superior digital and offset printability

### ECOPRINT™ II

238 gsm

EcoPrint™ II is a NASTA Type II certified material designed to exceed physical specifications required for elementary and high school textbooks. The environmentally-sound solution for book covers, box and CD wraps, slip cases, photo albums, loose leaf and lever arch files, religious texts and textbooks, EcoPrint™ II provides exceptional strength and prints beautifully.

### ECOPRINT™ 10

207 gsm

Allowing for exceptional digital and offset printability, as well as foil stamp capabilities, EcoPrint™ 10 is a printer's dream. With uses ranging from book covers, photo albums, looseleaf & lever arch files, religious texts, bags and more - the versatility offered by EcoPrint™ 10 is unmatched.

### ECOPRINT™ 17

425 gsm

The perfect material for perfect bound and wire-o books, as well as stationery and printed covers, EcoPrint™ 17 is a heavyweight, .017". Our solvent free coating is designed for superior digital and offset printing, as well as foil stamping and is an excellent choice for any soft cover application.
