

## Rainbow® Marble™ - Product Launch

January 2016

Inspired by the popular demand of our two existing items, Mica and Ebony Marble, Ecological Fibers is expanding this line to provide designers with a more complete collection of color options. In addition to traditional gold and silver options, we now present RAINBOW® Marble™ with a modernized selection of neutral tones, varying in shades of blue, green, and purple.

For a millennium, marble has held a prominent status - highly regarded for its material strength and awe-inspiring visual effects, it captures the eye with its subtle glimmer and spontaneous patterns designed by nature. With its traditional association to royalty and worth, RAINBOW® Marble™ epitomizes elegance through its combination of classic prints and contemporary colors.

Let your imagination travel freely back to the Renaissance period with the touch of Marble™. You don't have to contract Michelangelo to sculpt an impressive work of art. With Rainbow® Marble™, you can add a classic touch to your book or packaging design with our opulent finishes.

*When it comes to timeless style, you cannot beat the elegant, natural look of fine stone. Rich and refined, Rainbow® Marble™ brings a new shade of elegance to the covering world.*

*Colors:* Ebony, Tigereye, Bronzite, Sunray, Ivy, Juniper, Charoite, Azul, Lazuli, Mica, Oracle, Crystal

*Embossings:* Marble™ is stocked in Antique; Embossing available upon request; Testing is recommended.
